PRESIDENT LEWIS CRITICIZED BY MINERS ON FLOOR

Declare He Transcended His Authority in Illinois Strike Situation.

Referendum Settled Compromise Proposed.

TROOPS GUARD AT COLUMBUS.

Indianapolis, Aug. 18.—Vice-President Hayes, of the United Mine Workers, criticised President Lewis' attitude toward the Illinois miners in a speech today. Hayes said that Lewis had no authority to accept a compromise with the Illinois operators and then, after consulting the operators, submit the compromise to a referendum vote. He urged the convention to endorse the Illinois strike. John Mitchell also told the delegates that the Illinois strike deserves financial support.

Soldiers on Guard.

Columbus, O., Aug. 18.—Following action on part of Columbus Railway and Light company, today, in rejecting the offer of the city council to act as an arbitration board in settling the street car strike, Governor Harmon and Charles J. Pretzman, president of the chamber of commerce tonight inaugurated new peace efforts. No information concerning the governor's plans was to be obtained, although he said it was along new lines. Pretzman tomorrow will seek to get a formal offer from the company to re-instate its old men with an advance in pay to 25 cents an hour and with no recognition of the union.

Mayor Marshall again last night refused to be responsible for the operation after dark, and the company continued the policy adopted last night of putting armed detectives on the cars.

The company has a force of over 200 men for this and other similar purposes. General Manager Stewart says he has determined to run cars regularly and to put company guards on them.

It is not believed that the mayor will consent to police riding the cars. Sheriff Sartain has raised a force of 150 special deputies, some of whom are business men serving without pay.

Manager Stewart tonight sent a letter of criticism to the mayor demanding that the police cease "tempering with crime." He declared the force was "notoriously inefficient in its duty to disperse mobs and prosecute criminals."

Robert Mitchell 39, a piano salesman, died today from a fractured skull sustained when he was hit by a brick while riding on a car last Sunday. Mitchell said nothing about his injury until Monday morning, and then referred to it as of no consequence. An hour later he fell unconscious on the street. He did not regain consciousness, and the officials have no details of the assault.

Militia authorities are preparing to hold troops here indefinitely. It leaked out today that Governor Harmon had recommended the dismissal of Chief of Police Carter, but reported when Major Marshall demurred strenuously and even went to the point of declaring that he would rather resign himself than remove his chief.

CROPS OF MONTGOMERY SHOWING NEED OF RAIN

Clarksville, Tenn., Aug. 18.—The crops are beginning to show the need of rain, both corn, tobacco and potatoes. Though much of the early corn and tobacco is too far advanced to be materially injured it would be made better with another rain. Watermelons and cantaloupes are plentiful and on every corner may be seen wagons heavily loaded with them.

Will Go Back to Asylum.

Lee Dilworth, 39 years old, of the Woodville neighborhood was adjudged a lunatic by a jury in County Judge Alben Barkley's court this morning and ordered taken to the asylum for the insane at Hopkinsville. An attendant will arrive this evening and he will be taken there again for treatment early tomorrow morning. Dilworth has been unbalanced several years and only recently was dismissed from the asylum.

Cleveland, O., Aug. 18.—President W. G. Lee, of the Brotherhood of Railroad Trainmen, today announced the terms of the Pennsylvania railroad wage adjustment. The daily and mileage rates have been raised to the New York Central and Baltimore and Ohio schedules wherever lower than the rate obtainable on those lines, and maintained wherever higher.

Nick Longworth Opposes Cannon After Interview With President Taft at Beverly, Massachusetts

Roosevelt Starts on His Western Trip Next Week--Rumors of Break With Taft Discredited.

Beverly, Mass., Aug. 18.—Following political conferences here during the past few days, today came an announcement from Congressman Longworth, of Ohio, that he would oppose Speaker Cannon's re-election. He said: "I shall do so in a manner I consider proper, and effective for the settlement of party differences in the Republican caucus."

This was taken as evidence that President Taft is throwing his influence toward eliminating Speaker Cannon from the political situation. Longworth is an administration man.

At a conference this morning between Longworth, President Taft and Vice President Sherman, Longworth declared it to be his belief that Cannon would not be re-elected and this belief had been strengthened since the close of the last session by what he has heard from Cannon's former supporters. Longworth said he made the announcement of his own responsibility and at the suggestion of no one.

Roosevelt Ready for Start.

Oyster Bay, Aug. 18.—Roosevelt got back into the active political game. Four days hence he starts on his first speech-making tour. The colonel held conferences with several of his lieutenants today but all information in regard to them was withheld.

William Loeb went into a conference with Theodore Roosevelt this afternoon.

Rumor of Breach.

Washington, Aug. 18.—Reports that Roosevelt had broken with President Taft muddled the political atmosphere in Washington today. The assertion is made by three New York newspaper correspondents. Vice President Sherman remarked that his selection as temporary chairman of the New York convention was a victory for the administration. This is regarded as tantamount to a declaration of hostilities on his part. It does not connect the president. The fact that Congressman Murdock is known to have consulted Roosevelt on the text of his Ossawatomie, Kansas, speech August 31, seems to give grounds for the prediction that the colonel will make his first public profession at that time.

Not Known at Beverly

Beverly, Mass., Aug. 18.—If there is any break between President Taft and Roosevelt it is visible only from the New York end. The rumors that such a break has occurred created interest here; but no statement was forthcoming. Secretary Norton refused to be interviewed, but laid all dispatches aside for the president's perusal.

First Bales in South Alabama.

Mobile, Ala., Aug. 18.—First bales of cotton from points in south Alabama are reported as follows: Stewart Brothers, of Bay Minette, brought a bale to the Farmers' Gin company, but owing to a breakdown it was not ginned until today. Yes-

terday Alfred Bates, a negro, had his first bale ginned in Mobile. The cotton was raised at Prichards, a suburb of this city. Incidentally, it doctors' bill. He was held in jail until this afternoon at 2:15 o'clock, when he was given a ticket to his home in Murray, Ky., over the N. C. & St. L. railroad. A ticket was forwarded here this morning by his mother, Mrs. Matilda Irvin, and he was accompanied to the train.

BURLEY POOL IS SOLD TO TRUST

IT IS REPORTED THAT LEXINGTON SALE AVERAGED 18 CENTS.

Lexington, Ky., Aug. 18. (Special)—It is stated unofficially but from a good source that practically the entire 1909 burley pool was secured by R. J. Reynolds & company, of North Carolina, representing the trust, at the growers' price, an average of 18 cents.

Joseph Swift

News reached the city at 1 o'clock telling of the death of Mr. Joseph Swift, of this city, who died in a sanitarium in St. Louis at 12 o'clock.

Mr. Smith had been in bad health for the last six months and last week went to St. Louis, but continued to grow weaker until the end came. Mr. Swift was a well known paperhanger and was 50 years of age, spending the greater part of his life in Paducah. He was a brother of Mr. Prentiss Swift, who died a month ago.

Mr. Swift was never married but leaves many relatives in this city. The remains will be brought here to-morrow. No funeral arrangements have been made.

Bought It for Minor.

Jim Mathis, colored, put his foot into a loophole of the law yesterday when he is alleged to have purchased a glass of beer for Mack Edwards, colored, 17 years old, who had been refused by the bartender. He was arrested by Patrolman Stewart this morning charged with furnishing liquor to a minor.

Deputy United States Marshal Edward Neel captured another alleged bootlegger at Murray yesterday, bringing him to Paducah yesterday afternoon. He was Albert Eldridge and when taken before United States Commissioner W. A. Gardner he waived an examination, and gave \$100 bond for his appearance at the November term of federal court here.

FAILED TO END HIS LIFE FINED IN POLICE COURT

Harry M. Irvin's attempt at suicide yesterday morning at the New Richmond House, cost him a \$5 fine in police court this morning for disorderly conduct in addition to his doctors' bill. He was held in jail until this afternoon at 2:15 o'clock, when he was given a ticket to his home in Jersey City from an overdose of morphine. He was 48 years old.

Misfortune Attends Second Day's Flight of Yankee Aeronaut After Crossing Channel With Passenger

Machinery Breaks and He and Mechanician Have Hard Jolt--Emperor Franz Josef's Birthday.

London, Aug. 18.—John Moissant met with two mishaps today in his attempt to finish the last leg of his London to Paris aeroplane flight. He left Tilmanstone, accompanied by Alfred Sieux, his mechanic, at 5:05 this morning. At 7 a. m. near Slippingbourne, he was forced to descend on account of engine trouble. He re-ascended at 9 a. m., but at Upchurch one of the stays broke, fouling the engine. In alighting in an unused brickyard, the propeller was broken. Moissant wired to Paris for the defective parts, which may arrive tomorrow. Both men were shaken up by their abrupt landing. Moissant is the hero of the hour in England. He asserted he could not claim the \$25,000 prize offered by the London Mail, as he aviated for the sport. But, if the prize was offered him he would not refuse it.

Action Forestalled.

At the solicitation of James Billingsly, a fisherman and watchman on the Illinois Central railroad transfer boat Duncan, post cards have been printed and mailed to different points, asking for the apprehension of Will Dillingham and Edna Pevela, who are suspected of taking James Billingsly, the 8-year-old son of Billingsly.

According to Billingsly, he had been living with Edna Pevela for a number of years and he had a son, who is dear to the heart of the father. Billingsly alleges that the woman drew \$90 of his savings from a bank and skipped out with Will Dillingham, a river man. The boy has light hair, blue eyes and was dressed in a linen Buster Brown suit and wore a brown striped cap. Billingsly will not prosecute the man and woman, but is sparing no efforts to find his boy.

Warrant for Mayfield Man.

Mayfield, Ky., Aug. 18.—Chief of Police C. H. McNutt is making efforts to capture Riley Upchurch, a man 46 years of age, who is charged with kidnaping Marguerite Riley, the 11-year-old daughter of Mrs. Melvina Thompson. The couple has been missing since last Friday. Mrs. Thompson says that Upchurch, who came to her house as a stranger recently, told her that he and the girl were going out to Fancy Farm road to pick blackberries. They have not been seen since that time and all efforts to locate them have proven futile. Very little is known of Upchurch, but it is said he came from Memphis here and later went to Paducah and returned here.

Game at Hopetown

The Indians are playing their second game with Hopkinsville today and their Woodring or Payne will be in the box for Paducah. Anderson, Paducah's crack shortstop, has resigned, but fans say Manager Angermeier will not give him his release. Anderson is one of the best in the league and his release would be a distinct loss to the locals. It is said he may decide to remain, and with the addition of a few new players the Indians will be strengthened. Tomorrow will be the last day at Hopkinsville and Paducah will return here with Hopkinsville for three games.

SERIOUS CHARGE AGAINST WHITE MAN IN CARLISLE

Charles Patrick Arrested For Misconduct Toward Little Girl.

Evidence Against Him Not Strong.

ARREST IN SMITHLAND CASE.

Arlington, Ky., Aug. 18.—An attempted assault was made on the little 8-year-old daughter of Joe Bodkin at Berkley, Ky., Tuesday morning and Charley Patrick, a white man about 30 years old, is under arrest accused of the crime. According to the affidavit made by the little girl a man whom she did not know was in Leion's store at Berkley when she and her brother, aged 12, went in to buy some goods. The man caught her and fondled with her in the store. Then he bought some candy and gave it to her. She and her brother started home, which is a short distance up the railroad north of Berkley. However, the children started along the dirt road, but were overtaken by the man, who persuaded them to cross on to the railroad with him. After they had followed the railroad a short distance the little girl states that the man caught her and tore a portion of her clothing off. The boy in the meantime threatening to throw rocks and doing all he could to assist his little sister. While her assailant was watching the boy she managed to break away and ran home and reported to her parents at once. Efforts were made to apprehend the man.

GRISCOM WILL USE ROOSEVELT

SAYS HE WILL GO BEFORE PRIMARIES AND CONVENTION.

Roosevelt Refuses to Add to State-department—Does Not Say Whether He Will Lead Progressive.

SHERMAN CALLS ON TAFT

New York, Aug. 18.—There was marked calm over the troubled waters of the Republican political seas, following the storm when the "old guard" in the state committee would shape themselves during the name for temporary chairman of the coming state convention. No one was prepared to say how things would shape themselves during the days intervening between now and the state convention, when the delegates will finally determine who shall be chosen.

New York County Chairman Griscom, who presented Colonel Roosevelt's name to the committee, says the fight will be carried to the primaries and to the convention.

That Col. Roosevelt intends, as a delegate to the state convention from Nassau county, to urge a progressive platform and candidate for governor, is clearly indicated, politicians say this morning, in that portion of the colonel's statement issued last night which says that a speech by him "would be of such character that it might help if the convention nominated the right kind of a man on a clean cut progressive platform, but that it would hurt if neither the right kind of a man were nominated nor the right kind of a platform adopted."

Roosevelt Silent.

Oyster Bay, N. Y., Aug. 18.—Ex-President Roosevelt refused to add anything to his statement concerning the refusal of the Republican state committee to recommend him for the temporary chairmanship of the Saratoga state convention. He was not willing to say whether he would take any steps to lead the progressives, with whom he virtually enrolled himself yesterday in their fight to obtain control of the state committee. The impression here is that Col. Roosevelt will make a more vigorous fight than ever for a platform which will meet his views.

Col. Roosevelt made it clear today that under no circumstances would he allow his name to be presented to the convention as a candidate for the gubernatorial nomination.

Reports from the California primaries, which indicated that the progressives, under the leadership of Hiram Johnson, had won a victory, were read by Col. Roosevelt with much interest. He spent an hour this morning dictating a magazine article. He said he had no intention

of making a flight in Clifford B. Harmon's aeroplane Friday. He will not go to Hempstead to witness the opening flights.

HITCHCOCK TO "SEE" FOR TAFT
Postmaster General to Look Over Political Situation in West.

Washington, Aug. 17.—Postmaster General Frank H. Hitchcock will leave in a few days for a trip through the western part of the United States to study the political outlook in the doubtful territory for President Taft. The news comes on top of his return from Beverly, where he had several long conferences with the president, and tends to kill the rumor that Mr. Hitchcock has been succeeded as the chief political advisor of the administration by Senator Murray Crane, of Massachusetts, who is now "spying" in the west. Mr. Hitchcock's trip will extend to the Pacific coast. He refused to discuss his proposed trip except to say that he expects to "find a better condition of affairs for the Republican party than some pessimists seem to think exists." Mr. Hitchcock, however, is not too optimistic. He believes there are plenty of vineyards where the political gardener may get in some good work.

Mr. Hitchcock will meet President Taft in this city about Sept. 10 at a cabinet meeting to be held after his return from the national conservation congress to be held in St. Paul Sept. 6-9.

At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says, "It has been of inestimable value to me." Gilbert's Drug Store.

SHIP BUILDERS STRIKE.

All of German Yards Tied Up By Labor Troubles.

Berlin, Aug. 17.—As a result of the fight between the German shipbuilders and their employees, all the shipyards of Germany, except government works are now idle, so far as new construction is concerned. Naval construction assigned by the government to private yards is at a standstill, and ship owners are in many cases sending their ships to England for necessary repairs, naturally undertaken in home ports.

The men demand an increase of 10 per cent in wages and a 55-hour week. The shipbuilders maintain that these economic demands are a cloak to political purposes and cannot be granted.

Sympathetic strikes of the men employed by allied trades are now beginning. At Hamburg 3,611 metal workers have gone on strike.

Tanning snake skins for the manufacture of women's belts has become a lucrative industry in Madras.

STATE CROPS

FAVORABLE REPORT ON WHEAT AND CORN.

General Condition of Tobacco Is Not Satisfactory, According to Commissioner's Statement.

Commissioner Rankings, of the Kentucky department of agriculture, has been making an effort to compile the acreage of the principal crops in the state, but the reports he has received are too scattering and indefinite to make an estimate possible.

In more than 50 counties from which crop reports have been received there is no special note of discouragement, except with regard

to tobacco. Most of the counties say that the condition of tobacco is not good. A few report favorably with reference to all growing crops. Fruit, it seems, is more abundant than anyone had reason to expect after the storms and severe weather that prevailed last spring. The county reports vary greatly and the estimates range anywhere from 25 per cent to 95 per cent of the normal production. Most of them, however, are nearer 25 per cent than 95.

Taken as a whole, the reports as to corn and wheat are favorable. Heavy rains, in some places amounting to cloud bursts, have caused much damage to all crops, but wheat is turning out better than was anticipated at the beginning of the harvest and condition of corn in most of the counties is reported good.

The returns as to oats range from medium to good and the same may be said of potatoes. While the report of the commissioners do not cover half the coun-

ties in the state, and while some of them are disappointingly meager in detail their general trend is not unfavorable. There seems to be nothing in the present situation to cause Kentucky farmers to throw up their hands in despair over a possible shortage in the staple crops. It must be remembered that crops are wonderfully recuperative.

\$10,000,000 MERGER TALK

Two Fraternal Insurance Bodies Discuss Project at Detroit.

Detroit, Aug. 17.—A plan is on foot among the delegates of the National Fraternal Congress in session here, to merge with the Associated Fraternities of America, which will

meet in Atlantic City August 22. The two bodies represent total insurance estimated at \$10,000,000,000. The main difference between them is the matter of rates, the "adequate rate" and the "current cost rate."

President Thomas H. Cannon of Chicago says that there is really but little difference between the two bodies, and that if an agreement could be reached on the rate question the merger might result.

M'KINLEY'S KIN GETS PROPERTY

Sister-in-Law of Late President Wins in Fight for Canton Estate.

Canton, Ohio, Aug. 17.—By a court decision today Mrs. M. C. Barber, sister of the late widow of President McKinley, was given title to one-half of the property known as the McKinley Block in Canton valued at \$45,000. James McKinley, a nephew of President McKinley, and other heirs-at-law of the late execu-

tive, brought suit to get possession of the property, but the court held that the title of Mrs. Barber is valid and that the property belongs to her.

Daily Thought.
Hardship is the native soil of manhood and self-reliance.—Neal.

Let us understand one another.

We can believe the report of those heart shaped sun spots. It seems to have a cozy corner there for us.

Nothing else which a man admits that a public official of the opposite party may be honest.

One way to maintain peace in Central America would be to quit sending soldiers, arms and ammunition from this country.

Chicago claims a large percentage of gain in the last decade. "Wide is the gate and broad is the way, and many there be which go in thereat."

A Mexican froze to death in a refrigerator car in Texas when the thermometer registered 105. We always suspected those Texans of importing their best climates.

"If the good people would just stand shoulder to shoulder in this age all reforms would be possible," remarked a speaker recently. If, in other words, the good people would just be good, it would give the rest of us a chance to be good, too.

Henry Clews is already seeing symptoms of industrial unsettlement, born of a fear that a change in congress this fall may cause tariff tinkering. The farmer with his dollar wheat, 65 cent corn and nine dollar hogs doesn't want a change; and if jobbing houses, in anticipation of a general tariff reduction and consequent lowering of prices by reason of cheap imports, hold up orders to American factories, manufacturers and workmen will join the farmer.

THE MEAT AND MILK SUPPLY.

On the principle that the "last shall be first," Frankfort, which has been suffering an epidemic of typhoid fever, is about to establish a central abattoir and milk distributing depot that will give her a lead over the other Kentucky cities in the matter of health.

That is the only practical way of making certain the purity of the meat and milk supply. Occasional tests made at a bacteriological laboratory would ascertain the quality of the product examined at that particular time, provided we had confidence in the bacteriologist; but the distribution through a central depot would insure purity every day of the milk we consume.

If butchers and dairymen would combine on these projects, those who go in would be assured of a monopoly of the business and those who refuse to join in would be eliminated from the trade. It is a good business proposition for the dairymen and butchers as well as a sanitary measure that soon will become compulsory.

WILL THE INSURGENTS SWALLOW THE DEMOCRATS?
A few days ago we took occasion to say that of all odd political alliances, the endorsement of Republican insurgents by free trade Democrats

reason: the insurgents are pronounced protectionists, and propose to eliminate the tariff from politics by the appointment of a commission to secure data on the cost of production, and recommend changes of schedules to congress from time to time as the conditions warrant. That would forever establish protection as the American policy. Then the insurgents are extreme federalists and believe, not only in the postal savings bank conducted by the national government, but in the extension of federal authority over many other enterprises, now regulated by the states. Democratic endorsement of these policies would leave the party not a single feature of its traditional tenets to make a campaign with, and would amount to the practical absorption of the Democratic party by the Insurgents.

How timely our observation was indicated by the statement of former Governor Folk, of Missouri who said recently:

"I have been in most of the western states in the last few weeks, and found everywhere numbers of Democrats were joining the insurgents in the Republican party. Right here is the danger of the Democratic organization and the sooner this fact is recognized the better. This movement toward the insurgent element is not confined to one state, but Oregon, California and Washington I heard the same story."

Insurgent success at Republican primaries, if the insurgent policies are entirely popular and correct, does not mean the disruption of the Republican party, but its continuance in power. Whenever the insurgents have wrested control of the party organization from the old-time politicians, insurgent, and therefore, Republican, success is assured with the support and co-operation of Democratic voters. Insurgent victory then can mean nothing more than a new lease of life to the Republican party, and yet, the Democratic press is backing up the magazines, which have conducted much to the unrest and dissatisfaction that made the insurgent cause popular.

The break made by Mr. Griscom in New York of presenting the name of Roosevelt before the Republican state committee only to have it discarded for the temporary chairmanship of the state convention, may arouse the colonel's fighting blood and precipitate a fight in that state which will result in an insurgent victory there. President Taft may be expected to take the Roosevelt end of that scrap. If he does, that may force the national administration into the insurgent leadership and then short work will be made of Cannonism.

The national Republican party is pledged to a policy of federalism, and we have predicted that the next campaign will be waged on the issue between state and national authority;

but if the Democratic papers and politicians insist on taking sides with the most popular element of the Republican party just now, they will be so deep by that time, that their own words will be used against them.

Hooper to Take Stump.

Captain B. W. Hooper, nominee of

the convention for governor, stated

that he would make an active cam-

paign on the stump, but said no de-

tails have as yet been worked out.

These will be for the executive

committee to consider. Captain

Hooper was kept busy receiving

congratulations and assurance of sup-

port given him by both Republicans

and independent Democrats.

The nomination of Captain Hooper is giving satisfaction among Republians, and for the most part among anti-Patterson Democrats. Even many of those Democrats who are not inclined to support the anti-administration ticket, but who know Captain Hooper personally, pay tribute to him as a gentleman and a lawyer.

Banner Supports Hooper.

Captain Hooper will, it is well un-

derstood, receive support of the

Banner for governor. In an edi-

torial the Banner, after reviewing

the work of the convention, and

elimination of various gubernatorial

possibilities who were most promi-

nently considered, says, speaking of

the choice between Alf Taylor and

Captain Hooper:

"There is no gainsaying the fact

that the contest between the two

would have been closer but for the

fact that the Littleton forces were ac-

tive in their opposition to Hooper,

which turned the tide in favor of

Hooper, causing the delegations

favoring those who had eliminated

themselves to give their support

largely to Captain Hooper.

Captain Hooper is regarded by

those who know him best as an able

lawyer, a good business man, up-

right in all of his dealings and such

an one as will make Tennessee a

first-class governor. It is practically

certain that the convention, in nomi-

nating him, desired to put forward a

man with a clean, unobjectionable

record, whom the anti-Patterson

Democrats can support, and that the

executive committee of the inde-

pendents, which is called to meet to-

morrow, will take steps to second the

endorsement and support Captain

Hooper by the anti-Patterson

Democrats of the state.

USES PATTERSON'S WORDS.

The Tennessee indorse Captain

Hooper for governor, as follows:

"I would rather vote for a straight

Republican than a crooked Demo-

crat."—M. R. Patterson.

The Tennesseean heartily agrees

with the sentiment of Patterson's

statement. Therefore it indorses

the nomination of Capt. Ben W.

Hooper, Republican nominee for

governor, and heartily advocates his

election.

AN EDITORIAL HEADED "Ten-

nessee's Next Governor," the Ten-

nessee uses the following terms de-

scribing Captain Hooper:

"All in personal worth and indi-

vidual merit that the splendid man-

hood of Tennessee could wish for in

the man who is to take the final step

in the redemption of the common-

wealth.

"His record is as clean as a

brown's tooth."

"His life is typical of the cause

of the people."

LINING UP FOR HOOPER

Memphis, Tenn., Aug. 18.—The News-Schimlar says editorially:

"The News-Schimlar says vigorously opposed Mr. Patterson for five years. It has for as long opposed what is known as state-wide prohibition; that is, that character of temperance legislation, or intemperance legislation, that would enforce the views of the people of one part of the state on the people of another. The news-schimlar has defamed its honor and good name, and made of it by-word and reproach.

"He is strong in his convictions or right, thoughtful, considerate and just but with aggressive and commanding.

"He is a born leader of men, and in the fight he has espoused he will have the cordial support of those who want Tennessee wrested from the hands of those political vandals who have defamed its honor and good name, and made of it by-word and reproach.

"He is the people's candidate and not that of a machine.

"He carries the banner of an out-

aged indignant and determined people, and on that banner is already written a people's victory and a people's redemption."

Regarding the convention, the Tennessee says:

"The convention which nominated this man came from the people. It came representing the best sentiment of the republican party, and blessed by the prayers of the good people of all political beliefs and alignments. It was representative of the maturer judgment and the best sentiment of the state, and what it has done is the resounding dawn of a brighter and a better day."

The platform adopted indorses the administration of President Taft and commands him for his broad-minded spirit in elevating to the supreme bench of the United States Horace L. Burton, of Tennessee.

Tennessee Republicans will with-

in the next two weeks make plans

for an active campaign.

MONTT'S DEATH UNEXPECTED.

Preparing for Bed When Heart Failure Came.

Bremen, Aug. 18.—The death of President Pedro Montt, of Chile, in this city last night, was unexpected. He was preparing for bed when he was seized with cramps of the heart and died almost instantly. His wife was with him at the time. The hour was a few minutes before 12 o'clock. Almost all the members of the presidential party were up, engaged in conversation with Senor Besa, secretary of the Chilean legation at Berlin, and other attachés who had met President and Mrs. Montt here on the arrival of the steamship Kaiser Wilhelm der Grosse from New York.

As soon as it was seen that Senor Montt's condition was serious a physician was summoned, but it was too late. The doctor did all he could to save his patient, but without success. President Montt passed away almost instantly.

It was his intention to go to Badenbaden, passing through Berlin on his way. It was planned that Senor Matte, the Chilean minister to Berlin should meet him at the railroad station this morning.

The body has been embalmed and probably will be taken to the Catholic church of St. Johannes, where it will rest until its final disposition.

Interesting Reading for Tubercular Invalids

Eckman Mfg. Co.'s Booklet of Cured Cases Part of the Anti-Tuberculosis Crusade.

The makers of Eckman's Alternative—the medicine that is curing tuberculosis all over the country—have distributed with druggists or will send direct, a pamphlet that every consumptive should get. It tells their own language the true story of those who have been cured by Eckman's Alternative.

Many medical booklets sign their testimonials with initials or give the city or State, and not the street address. The Booklet of Cured Cases is honest and sincere.

It gives the name and address of the author, and also the date. We urge you to write or call these people and hear their story direct.

Such straight-from-the-heart evidence as this is most convincing indeed.

INDIANS EMPLOY LEGAL COUNSEL

WITHOUT THEM THEY COULD NOT GET THEIR MONEY.

Commissioner of Indian Affairs Valentine Makes Up a List of Fees Paid Attorneys.

PAY THEM VERY LARGE FEES

Sulphur, Okla., Aug. 18.—In response to a request from Commissioner of Indian Affairs Valentine, the special congressional committee investigating Indian land affairs forwarded to Beverly, Mass., a statement covering the amount of attorneys' fees paid by the Indians. The statement was said to be for the use of President Taft. The statement covers a period of 20 years and embraces money paid out as contingent fees. It shows the total money so paid was \$3,893,304.54. Among the largest fees was \$789,000, paid by the Chickasaw Indians to recover \$2,858,798. The New York Indians paid \$240,843 to recover less than \$2,000,000. The Eastern Cherokee paid a fee of \$720,000. In some instances the fees paid were as high as 25 per cent of the property involved.

The request to the committee for the figures is taken as indicating that President Taft has decided to interest himself in the present investigation, which grew out of Senator T. P. Gore's charges of attempted bribery.

The contracts now held by J. F. McMurray call for a 10 per cent fee for the sale of \$30,000,000 worth of land in this state. In presenting the figures before the committee, Representative Philip Campbell, of Kansas, said:

"It is rather a startling condition of affairs that such an amount of money was paid by the Indians to American lawyers, when the government itself is the guardian of the Indians."

Need Many Lawyers.

Indians have so much legal business they employ lawyers by the half dozen, according to Douglass H. Johnston, governor of the Chickasaw tribe of Indians, who testified before the congressional committee.

Governor Johnston testified he was unable to state what service some of the lawyers were paid for.

The lawyers were employed previous to the existence of the present contracts, which provide for the sale of \$30,000,000 worth of land with a 10 per cent fee to Attorney J. F. McMurray.

Here are some of the expenditures which, according to Governor Johnston, were made by the Indians for legal services, most of the lawyers being employed simultaneously.

Paid J. F. McMurray's law firm \$5,000 a year, with \$7,200 expenses; paid McMurray's firm another \$5,000 a year at the same time on another contract; paid McMurray \$750,000 as special fee in the citizenship cases, with an expense account of \$30,000; paid four other attorneys an aggregate of \$10,000 a year.

It was the belief, Governor Johnston testified, that without the employment of so many attorneys the Indians would have lost millions of dollars.

Governor Johnston testified that in the sale of Indian lands in Mississippi it had cost the government \$6,000,000 to sell \$2,000,000 worth of land.

It is scarcely likely that the commerce court will be in operation before some time early in the coming year.

JOINS THE INDEPENDENTS.

Fritzl Scheff Signs Contract With Schuberts.

Bristol, Tenn., Aug. 18.—The independent theatrical organization has secured Mme. Fritzl Scheff, the comic opera star and former singer at the Metropolitan Grand opera house in New York. Mme. Scheff, who is in private life Mrs. John Fox, Jr., wife of the novelist, has, as just signed with the Shuberts, and thus the syndicate loses another one of its most popular stars.

Mr. and Mrs. Fox spent yesterday in Bristol playing golf on the Bristol Links of the Country club and it was learned that she had gone over to the independents. She has for several seasons been under the management of Charles Dillingham of the syndicate.

Mr. and Mrs. Fox spend their summers and leisure time in their bungalow near Bristol. Mr. Fox being a native of this section having lived here for many years. They visit Bristol once or more each week to play golf, shop, etc. Mrs. Fox is in splendid health and enjoying the exhilarating mountain climate of the south west Virginia mountains outside of Bristol. Mr. Fox is deeply engaged in a new novel, but finds time to join her almost every day on the golf links.

VIRGINIA OF THE AIR

By HERBERT QUICK

Copyright, 1909, by the Bobbs-Merrill Company

PREPARATION FOR BATTLE

DEMOCRATIC COMMITTEE'S NEW CAMPAIGN BOOK.

Extracts From Speeches of Republican Insurgents at Recent Session of Congress.

IT COVERS WIDE LATITUDE.

Washington, Aug. 18.—The tariff and cost of living, Republican extravagance, Cannon and Cannonism, President Taft and his administration, publicity of campaign funds, merchant marine corporation and labor legislation—the foregoing are leading issues set forth in the new campaign book just issued by the Democratic congressional committee.

And then Mrs. Graybill screamed. She had seen the man under the car deliberately let go his hold and drop into the water. The lightened car tilted slightly upward now as Virginia obeyed orders, soared slowly onward, rising a little as her momentum brought the great gliding surfaces against the air, and then clearing the foam of the surf, she softly settled on the sand with her stern rudder, like the tail of a great dead bird, washed by the hungry waves which she had as by a miracle escaped. And rowing from the offing where he had gone in his fishing boat in the wild and improbable belief that he might help his master came Captain Harrod with a white-faced young man lying in the bottom of the boat whose fingers dripped blood from the remorseless work of the file.

"Allow me to suggest," observed Craighead as the gentlemen of the party at Harrod's camp sat in lounging attitude on various articles used as chairs, mostly jetsam and dotsam of the gulf, "that in perfecting the first really practicable flying machine we have set in motion social and economic reactions that will go on and on far beyond the ken of those who, unlike myself, have not made a specialty of them. As that submarine dragged the Virginia out to sea yesterday we all thought it was the last of Carson, M. A., didn't we?"

Mr. Carson picked at his bandaged fingers, embarrassed.

"I don't see much hope of escape," said he.

Breakfast was served. Mr. Waddy was upon tenthooks until the Virginia had been explained to him, so a trip was arranged for Waddy, Craighead and Carson. They would fly down to Fort Morgan, thence to Palmetto Beach, get their mail and be back for dinner.

Mr. Waddy shied from the sea, but once in air he became intoxicated with enthusiasm. If this machine, said he, was so good that the Aerostatic Power people thought it good business to hire Witzner to drown it and its inventor—he could not otherwise explain the horrible affair of yesterday—it was good enough to be backed with all the Waddy money in all the eight banks.

The Virginia had alighted on the parade ground at Fort Morgan. The bamboo braces fell outward, and she lay on an even keel. The aeronaut invariably halted at the mooring balloon and received passes, but Mr. Waddy's declaration of fealty was so absorbing and the speed of the Virginia so unswayed to her pilot that the fort had been spread beneath him like a map before he was aware of it. To a slight height mean arrest, inquiry and discharge after explanations to the commandant, Colonel Krimmick, of whose severity Carson felt no real fear. But if he tried to go away after running the guard he might be fired on as a spy making off with complete photographs. Altogether it was safest to alight, thought Carson, and he settled on the parade ground, greatly to the agitation of an awkward squad drilling under sergeant, whose bellowed commands were cut short off by the whirr of the reversal of the Virginia's wing blades. He turned and saw the huge dragon fly with its bow rudder pointed at him like a great mandible.

The drill sergeant's expression carried conviction to the sergeant of the guard, where his description of a devil of a bird thing that you couldn't see at all till it struck the ground might not have been credited. The guard turned out and moved on the parade ground. The guard encountered a great silver-winged insect with a snug car amidships, her four braces sticking in the Bermuda grass like very short legs.

The guard halted at five paces, and he sergeant advanced, obtaining his first good look at Mr. Craighead, maintaining the attitude of military caricature with a steadieness perfectly statuesque. The sergeant, a little man with a red mustache turned up a la aise, looked at him for half a minute and uttered a mysterious exclamation.
